

GUIDELINES ON PROJECT SELECTION FOR LEARNER CONTRACTORS

1ST PROJECT

Duration	:	3 - 4 Months.
Financial Size	:	R250,000 to R 500,000 (Total Contract Value).
Typical Projects	:	Low volume roads (max. 100 vpd), sidewalks, stormwater drainage, water reticulation, sanitation.
Typical Activities	:	Trenching, earthworks, gravelling, compaction, culverts, drainage, stone pitching, kerbing and paving (concrete block).
Level of Complexity	:	Should NOT include bridges, sealing works, asphalt, rock excavation and blasting, reinforced concrete, gabions, large retaining walls and excavations exceeding 1.5m.

2ND PROJECT

Duration	:	6 -12 Months.
Financial Size	:	R500,000 to R 2,000,000 (Total Contract Value).
Typical Projects	:	Low volume roads (max 500 vpd), sidewalks, stormwater drainage, water reticulation, sanitation.
Typical Activities	:	Trenching, earthworks, gravelling, compaction, culverts, drainage, stone pitching, seals, gabions, small reinforced concrete structures, rock excavation and blasting, pipe laying.
Level of Complexity	:	Should NOT include bridges, asphalt, large retaining walls and excavations exceeding 1.5m.

3RD PROJECT

Duration	:	6 -12 Months.
Financial Size	:	R1,000,000 to R5,000,000 (Total Contract Value).
Typical Projects	:	Low volume roads (max. 500 vpd), sidewalks, stormwater drainage, water reticulation, sanitation.
Typical Activities	:	Trenching, earthworks, gravelling, compaction, culverts, drainage, stone pitching, seals, gabions, small reinforced concrete structures, rock excavation and blasting, pipe laying, small bridges, large retaining walls.
